**Service Contract Labor Standards:** The Service Contract Labor Standards (SCLS) are applicable to this contract as it applies to the entire Consolidated MAS Schedule and all services provided. While no specific labor categories have been identified as being subject to SCLS due to exemptions for professional employees (FAR 22.1101, 22.1102 and 29 CRF 541.300), this contract still maintains the provisions and protections for SCLS eligible labor categories. If and / or when the contractor adds SCLS labor categories / employees to the contract through the modification process, the contractor must inform the Contracting Officer and establish a SCLS matrix identifying the GSA labor category titles, the occupational code, SCLS labor category titles and the applicable WD number. Failure to do so may result in cancellation of the contract.

### **Labor Category Descriptions SIN 54151S**

#### **Analyst I (Eagle TG, LLC)**

---

**Functional Responsibility:** Assists with requirements collection and documentation under close supervision. Supports data gathering, task tracking, and initial process mapping. Prepares notes, schedules, and input summaries from user sessions. Applies basic analytical methods and supports version control and documentation tasks.

**Minimum Education:** Bachelors Degree

**Minimum Experience:** 0 Year

#### **Analyst II (Eagle TG, LLC)**

---

**Functional Responsibility:** Independently analyzes business inputs and develops structured documentation. Conducts stakeholder interviews and synthesizes technical and operational data. Refines workflow diagrams, use cases, and requirements based on project feedback. Supports feasibility assessments and change impact analysis. Collaborates with developers and testers to align technical outputs with documented needs.

**Minimum Education:** Bachelors Degree

**Minimum Experience:** 1 Years

#### **Analyst III (Eagle TG, LLC)**

---

**Functional Responsibility:** Leads complex requirements analysis efforts across business and system domains. Facilitates working sessions and ensures traceability from business need through implementation. Develops and maintains detailed documentation packages, manages stakeholder feedback, and resolves conflicting inputs. Oversees the work of junior analysts and ensures timely, accurate delivery of requirements and related documentation across concurrent projects.

**Minimum Education:** Bachelors Degree

**Minimum Experience:** 3 Years

#### **Applications Developer I (Eagle TG, LLC)**

---

**Functional Responsibility:** Assists with software development, testing, and debugging activities. Performs entry-level coding tasks and supports integration and documentation under supervision. Applies basic development tools and follows established programming practices.

**Minimum Education:** Bachelors Degree

**Minimum Experience:** 0 Year

### **Applications Developer II (Eagle TG, LLC)**

---

**Functional Responsibility:** Develops and maintains application components with moderate complexity. Supports system integration, code optimization, and testing coordination. Works independently on assigned tasks and contributes to technical documentation.

**Minimum Education:** Bachelors Degree

**Minimum Experience:** 1 Years

### **Applications Developer III (Eagle TG, LLC)**

---

**Functional Responsibility:** Leads development tasks and contributes to system design and implementation. Oversees technical deliverables, resolves complex integration issues, and supports architecture planning. Provides guidance to junior staff and ensures coding standards are met. Mentors junior developers and leads development tasks across concurrent initiatives.

**Minimum Education:** Bachelors Degree

**Minimum Experience:** 3 Years

### **Applications Developer IV (Eagle TG, LLC)**

---

**Functional Responsibility:** Directs software development strategy and technical execution across projects. Defines coding standards, leads solution design, and manages senior technical staff. Provides expert input on tool selection, architecture, and delivery planning.

**Minimum Education:** Masters Degree

**Minimum Experience:** 5 Years

### **Applications Systems Analyst I (Eagle TG, LLC)**

---

**Functional Responsibility:** Assists in the design, development, testing, implementation, and documentation of new software and enhancements of existing applications. Applies basic development tools and follows established programming practices.

**Minimum Education:** Bachelors Degree

**Minimum Experience:** 0 Year

### **Applications Systems Analyst II (Eagle TG, LLC)**

---

**Functional Responsibility:** Performs analysis of business and technical needs to define application requirements. Translates stakeholder input into structured documentation and supports test case execution. Coordinates with technical teams on design walkthroughs and validation sessions. Evaluates existing applications and tools to identify areas for refinement or enhancement.

**Minimum Education:** Bachelors Degree

**Minimum Experience:** 1 Years

### **Applications Systems Analyst III (Eagle TG, LLC)**

---

**Functional Responsibility:** Leads requirements definition for medium-to-large systems and develops comprehensive functional documentation. Analyzes performance, scalability, and usability constraints in collaboration with project teams. Oversees documentation and traceability, resolves requirement conflicts, and supports design validation. Mentors junior analysts and leads analysis tasks across concurrent initiatives.

**Minimum Education:** Bachelors Degree

**Minimum Experience:** 3 Years

### **Applications Systems Analyst IV (Eagle TG, LLC)**

---

**Functional Responsibility:** Directs analysis strategy for enterprise systems and complex integrations. Defines specifications across multiple workstreams and ensures alignment with business architecture. Leads feasibility studies, system evaluations, and stakeholder alignment sessions. Oversees requirement governance, risk prioritization, and decision support documentation. Guides multidisciplinary teams and advises senior leadership on solution direction.

**Minimum Education:** Masters Degree

**Minimum Experience:** 5 Years

### **Business Process Consultant IV (Eagle TG, LLC)**

---

**Functional Responsibility:** Serves as the senior subject matter expert for business transformation and enterprise process optimization initiatives. Leads the assessment and redesign of complex or high-impact workflows, supporting both operational efficiency and strategic modernization goals. Designs and facilitates process workshops with cross-functional teams, translating stakeholder feedback into actionable plans, and produces high-level decision support materials. Oversees development of strategies, adoption plans, and performance measurement frameworks. Manages process improvement teams, ensures change alignment across business units, and collaborates with system architects and technical leads to integrate redesigned processes into system requirements and implementation plans. Guides multidisciplinary teams and advises senior leadership on solution direction.

**Minimum Education:** Masters Degree

**Minimum Experience:** 5 Years

### **Business Systems Analyst IV (Eagle TG, LLC)**

---

**Functional Responsibility:** Leads enterprise-level system and business analysis efforts for major initiatives and modernization programs. Defines and maintains system and data specifications that align with evolving mission and compliance requirements. Oversees analysis of performance, scalability, and architectural impacts of new technologies and application changes. Facilitates stakeholder alignment and approval processes, manages analysis documentation, and ensures consistency across workstreams. Provides strategic analysis support to executive decision-makers, mentors analysts across teams, and ensures traceability from business need to system implementation across multiple integrated platforms.

**Minimum Education:** Masters Degree

**Minimum Experience:** 5 Years

### **Chief Information Security Officer VI (Eagle TG, LLC)**

---

**Functional Responsibility:** Serves as the senior-most authority on information security strategy, governance, and operations. Leads the development and enforcement of enterprise-wide security programs and advises senior executives on evolving threat landscapes, technology risks, and regulatory developments. Oversees the evaluation and integration of security technologies, including monitoring tools, identity and access management, endpoint protection, and cloud security controls. Directs cross-functional security teams, defines risk tolerance thresholds, and manages security budgets. Collaborates with internal and external stakeholders on incident response coordination, audit activities, and third-party risk assessments. Provides strategic oversight of security metrics, maturity models, and enterprise risk posture. Manages senior personnel and ensures alignment between security priorities and organizational goals.

**Minimum Education:** Masters Degree

**Minimum Experience:** 7 Years

### **Computer Forensic and Intrusion Analyst IV (Eagle TG, LLC)**

---

**Functional Responsibility:** Conducts advanced digital forensics and incident response investigations involving complex attack surfaces, evasive malware, and cross-system compromise. Leads acquisition and analysis of volatile and non-volatile data, correlates findings across platforms, and reconstructs adversary activity to support technical or legal proceedings. Evaluates forensic tools, creates custom scripts, and recommends updates to detection and logging mechanisms. Advises on threat mitigation strategies and supports tuning of security monitoring systems. Oversees incident investigations, prepares executive-level summaries, and coordinates across security, compliance, and legal teams. Mentors forensic analysts and leads response efforts for sensitive or high-impact security events.

**Minimum Education:** Masters Degree

**Minimum Experience:** 5 Years

### **Computer Scientist V (Eagle TG, LLC)**

---

**Functional Responsibility:** Leads the design and implementation of scientific and analytical software systems supporting enterprise or research initiatives. Develops advanced algorithms, computational models, and custom analytical tools for simulation, optimization, or modeling use cases. Guides architectural design decisions and ensures consistency across high-performance or data-intensive environments. Oversees technical strategy, reviews code artifacts, and advises stakeholders on applied computing solutions. Provides mentorship to technical staff and contributes to the evaluation of innovative technologies or computing frameworks.

**Minimum Education:** Masters Degree

**Minimum Experience:** 7 Years

### **Configuration Management Specialist II (Eagle TG, LLC)**

---

**Functional Responsibility:** Maintains records of hardware and software configurations, change logs, and version control artifacts. Participates in change control board meetings and documents approvals, rejections, or deferrals. Supports configuration identification, audits, and data integrity checks under supervision. Assists in maintaining configuration baselines and applies version control procedures to maintain release accuracy.

**Minimum Education:** Bachelors Degree

**Minimum Experience:** 1 Years

### **Configuration Management Specialist III (Eagle TG, LLC)**

---

**Functional Responsibility:** Implements and maintains configuration control practices across multiple environments. Analyzes change impacts, manages the CM database, and enforces version tracking across product lines. Leads configuration audits and provides procedural guidance to project teams. Coordinates with testing and release teams to align configuration items with delivery milestones and supports troubleshooting of deployment discrepancies. Mentors junior analysts and leads analysis tasks across concurrent initiatives.

**Minimum Education:** Bachelors Degree

**Minimum Experience:** 3 Years

### **Configuration Management Specialist IV (Eagle TG, LLC)**

---

**Functional Responsibility:** Leads enterprise configuration management planning and governance. Establishes CM policy and procedures and ensures compliance across teams and systems. Defines strategy for automated CM tools and oversees configuration data quality, audit readiness, and lifecycle

traceability. Provides expert guidance on CM integration with release management, DevSecOps pipelines, and quality assurance practices.

**Minimum Education:** Masters Degree

**Minimum Experience:** 5 Years

#### **Consultant I (Eagle TG, LLC)**

---

**Functional Responsibility:** Supports technical consultants or project staff by gathering and organizing client requirements, assisting with solution documentation, and providing end-user communication support. Applies basic analytical and communication skills in a supervised team environment. Prepares meeting materials and maintains version-controlled documentation.

**Minimum Education:** Bachelors Degree

**Minimum Experience:** 0 Year

#### **Consultant II (Eagle TG, LLC)**

---

**Functional Responsibility:** Conducts stakeholder interviews, assesses IT needs, and drafts structured recommendations for review. Assists in evaluating operational challenges, technology use, and change readiness. Facilitates knowledge sharing, supports data gathering, and tracks resolution of technical or procedural issues. Coordinates with implementation teams to align workstreams with client goals.

**Minimum Education:** Bachelors Degree

**Minimum Experience:** 1 Years

#### **Consultant III (Eagle TG, LLC)**

---

**Functional Responsibility:** Leads client engagements involving system usage analysis, solution planning, and modernization initiatives. Provides insight into process improvement opportunities and develops implementation strategies. Coordinates across business and IT teams to ensure project alignment. Mentors junior consultants, refines client deliverables, and contributes to the long-term success of solution adoption efforts.

**Minimum Education:** Bachelors Degree

**Minimum Experience:** 3 Years

#### **Data Architect IV (Eagle TG, LLC)**

---

**Functional Responsibility:** Defines and maintains enterprise data architecture frameworks across cloud, hybrid, and on-premises environments. Leads the creation of data standards, integration strategies, and warehouse optimization techniques. Coordinates across multidisciplinary teams to implement dimensional modeling, data pipelines, and governance workflows. Advises leadership on master data management, architecture scalability, and modernization strategy. Oversees implementation and ensures alignment with operational goals, security considerations, and system lifecycle requirements.

**Minimum Education:** Masters Degree

**Minimum Experience:** 5 Years

#### **Data Warehousing Specialist I (Eagle TG, LLC)**

---

**Functional Responsibility:** Assists in the documentation of data warehouse requirements, data mappings, and ETL routines. Supports testing and maintenance of data pipelines, validation of ingestion processes, and preparation of basic reports. Applies standard tools and follows guidance in a supervised environment.

**Minimum Education:** Bachelors Degree

**Minimum Experience:** 0 Year

### **Data Warehousing Specialist II (Eagle TG, LLC)**

---

**Functional Responsibility:** Develops and maintains ETL scripts and data models to support dashboards, reports, and analytics use cases. Implements quality checks, enforces schema consistency, and collaborates on data structure enhancements. Supports database refresh cycles, user access provisioning, and metadata maintenance.

**Minimum Education:** Bachelors Degree

**Minimum Experience:** 1 Years

### **Data Warehousing Specialist III (Eagle TG, LLC)**

---

**Functional Responsibility:** Leads development of warehouse schemas and manages integrations with source systems. Optimizes performance through indexing, partitioning, and scheduling strategies. Evaluates reporting tools, maintains metadata repositories, and enforces governance practices. Provides direction to data analysts and engineers in delivering analytic-ready datasets. Mentors junior data warehousing specialists and leads data warehousing tasks across concurrent initiatives.

**Minimum Education:** Bachelors Degree

**Minimum Experience:** 3 Years

### **Data Warehousing Specialist IV (Eagle TG, LLC)**

---

**Functional Responsibility:** Architects data warehouse environments supporting enterprise analytics, operational intelligence, and business intelligence strategies. Oversees solution design, scalability, and compliance with data lifecycle and retention policies. Leads enterprise data modeling efforts, advises on data lake integration, and drives continuous improvement across tools, methods, and metadata strategy.

**Minimum Education:** Masters Degree

**Minimum Experience:** 5 Years

### **Database Administrator (Solerity, Inc.)**

---

**Functional Responsibility:** Provides all activities related to the administration of computerized databases. Projects long-range requirements for database administration and design in conjunction with other managers in the information systems function. Designs, creates, and maintains databases in a client/server environment. Conducts quality control and auditing of databases in a client/server environment to ensure accurate and appropriate use of data. Advises users on access to various client/server databases. Designs, implements, and maintains complex databases with respect to JCL, access methods, access time, device allocation, validation checks, organization, protection and security, documentation, and statistical methods. Applies knowledge and experience with database technologies, development methodologies, and front-end /back-end programming languages (e.g., SQL). Performs database programming and supports systems design. Includes maintenance of database dictionaries, overall monitoring of standards and procedures, file design and storage, and integration of systems through database design.

**Minimum Education:** Bachelors Degree

**Minimum Experience:** 5 Years

### **Database Specialist I (Eagle TG, LLC)**

---

**Functional Responsibility:** Assists with database creation, configuration, and maintenance under supervision. Supports basic queries, indexing, and backup tasks. Follows established procedures for access controls, data validation, and change tracking.

**Minimum Education:** Bachelors Degree

**Minimum Experience:** 0 Year

### **Database Specialist II (Eagle TG, LLC)**

---

**Functional Responsibility:** Manages day-to-day database administration tasks, including performance monitoring, log analysis, and script execution. Implements backup and recovery strategies and performs minor schema adjustments to support application needs. Works with developers to troubleshoot query performance.

**Minimum Education:** Bachelors Degree

**Minimum Experience:** 1 Years

### **Database Specialist III (Eagle TG, LLC)**

---

**Functional Responsibility:** Leads implementation of database improvements, index tuning, and query optimization across environments. Designs logical and physical data models, supports high-availability configurations, and conducts capacity planning. Oversees data migration, change management, and security hardening efforts. Coordinates with application and infrastructure teams to ensure continuity and performance. Mentors junior database specialists and leads analysis tasks across concurrent initiatives.

**Minimum Education:** Bachelors Degree

**Minimum Experience:** 3 Years

### **Database Specialist IV (Eagle TG, LLC)**

---

**Functional Responsibility:** Architects and manages complex, enterprise-scale database systems. Defines standards for performance, availability, and scalability. Oversees database strategy, modernization planning, and integration across platforms and cloud services. Provides leadership on tool evaluation, policy enforcement, and governance alignment. Mentors database teams and leads system audits or recovery readiness efforts.

**Minimum Education:** Masters Degree

**Minimum Experience:** 5 Years

### **Disaster Recovery Specialist II (Eagle TG, LLC)**

---

**Functional Responsibility:** Assists with documenting recovery procedures, test plans, and system recovery protocols. Supports DR testing coordination and issue resolution. Tracks updates to recovery assets, system configurations, and dependency lists. Collaborates with operations teams during DR exercises and provides after-action documentation.

**Minimum Education:** Bachelors Degree

**Minimum Experience:** 1 Years

### **Disaster Recovery Specialist III (Eagle TG, LLC)**

---

**Functional Responsibility:** Leads planning and execution of DR testing, scenario analysis, and recovery plan validation. Evaluates system interdependencies, develops playbooks, and updates continuity strategies based on organizational changes. Coordinates with infrastructure and application owners to ensure critical systems meet defined recovery objectives. Provides documentation and leadership during

recovery events and improvement initiatives. Mentors junior disaster recovery specialist and leads disaster recovery tasks across concurrent initiatives.

**Minimum Education:** Bachelors Degree

**Minimum Experience:** 3 Years

#### **Enterprise Architect V (Eagle TG, LLC)**

**Functional Responsibility:** Provides high-level architectural expertise for defining and optimizing enterprise-wide systems. Develops architectural standards, defines system strategies, and supports technology selection aligned with organizational goals. Collaborates with senior stakeholders to assess feasibility, prioritize initiatives, and ensure technical alignment across portfolios. Guides complex integrations, identifies systemic risks, and oversees documentation and planning artifacts that support project delivery. Contributes to enterprise governance forums and supports alignment of architecture with business strategy.

**Minimum Education:** Masters Degree

**Minimum Experience:** 7 Years

#### **Enterprise Architect VI (Eagle TG, LLC)**

**Functional Responsibility:** Serves as lead enterprise architect responsible for end-to-end system architecture across complex, integrated environments. Formulates enterprise-level design strategies and target-state architectures addressing performance, security, and scalability. Oversees implementation of reference models and ensures system alignment with long-term technical and business objectives. Engages with senior executives to translate business vision into architecture deliverables and modernization blueprints. Advises on technology investments, vendor tools, and platform consolidations. Leads architecture teams, mentors senior staff, and ensures compliance with architecture governance policies.

**Minimum Education:** Bachelors Degree

**Minimum Experience:** 7 Years

#### **ERP Analyst IV (Eagle TG, LLC)**

**Functional Responsibility:** (a) Assists with the development and maintenance of the Enterprise Resource Planning (ERP) program. (b) Analyzes and evaluates Enterprise Resource Planning (ERP) application systems. Assists in software upgrades, documentation, and implementation. (c) Customizes and configures workflow to allow the integration of client/server applications. (d) Tests Enterprise Resource Planning (ERP) layout to ensure the system is meeting corporate needs.

**Minimum Education:** Masters Degree

**Minimum Experience:** 3 Years

#### **ERP Business/Architectural Specialist V (Eagle TG, LLC)**

**Functional Responsibility:** Provides expert-level guidance on ERP architecture, system configuration, and implementation strategy. Defines system structures, integration points, and data governance models. Leads cross-functional teams in evaluating ERP modules, identifying architecture risks, and delivering high-quality, scalable solutions. Advises on upgrade paths, system optimization, and organizational change implications related to ERP adoption. Oversees technical documentation, configuration standards, and architectural governance.

**Minimum Education:** Masters Degree

**Minimum Experience:** 7 Years

### **Expert SME (Solerity, Inc.)**

---

**Functional Responsibility:** Serves as a SME, possessing in-depth knowledge on subjects relating to the conduct, activities, governance, business practices, or operations. Provides expert support, analysis, and research with only broad direction into exceptionally complex problems and processes relating to the subject matter. Provides extensive technical knowledge, analysis of, understanding, and experience in the application of technical principles, theories, and concepts in the required technical field, as well as having full knowledge of other related disciplines. Handles exceptionally complex problems that need extensive knowledge of the subject matter for effective development and implementation of solutions. Provides technical solutions to a wide range of complex problems. Provides technical expertise in a particular area of IT (e.g. Information Systems Architecture, Telecommunications Systems Design, Architecture, Implementation, Information Systems Integration, Software Development Methodologies, Security Engineering, Communications, Network Systems Management, etc.) or a specific functional area (e.g. finance, logistics, operations research, planning, policy, technical intelligence, etc.)

**Minimum Education:** Bachelors Degree

**Minimum Experience:** 10 Years

### **Enterprise Systems Administrator I (Eagle TG, LLC)**

---

**Functional Responsibility:** Performs routine installation, configuration, and monitoring of system components under supervision. Supports ticket resolution, routine system updates, and log reviews. Follows established procedures for user account creation, backup tasks, and standard maintenance operations.

**Minimum Education:** Bachelors Degree

**Minimum Experience:** 0 Years

### **Enterprise Systems Administrator II (Eagle TG, LLC)**

---

**Functional Responsibility:** Independently performs configuration and administration of operating systems and related services. Troubleshoots incidents involving system performance, user access, and patch management. Coordinates minor upgrades and provides documentation for change tracking and compliance purposes. Interfaces with IT support teams to resolve escalated issues.

**Minimum Education:** Bachelors Degree

**Minimum Experience:** 1 Years

### **Enterprise Systems Administrator III (Eagle TG, LLC)**

---

**Functional Responsibility:** Leads administration efforts across server platforms and contributes to the development of maintenance and disaster recovery procedures. Conducts performance tuning, system integration, and security hardening. Oversees patch deployment, configuration auditing, and system automation activities. Guides junior administrators, supports operational planning, and ensures compliance with organizational policies and IT best practices. Mentors junior systems administrators and leads system administration tasks across concurrent initiatives.

**Minimum Education:** Masters Degree

**Minimum Experience:** 7 Years

### **Financial Analyst IV (Eagle TG, LLC)**

---

**Functional Responsibility:** Leads financial planning and analysis activities across multi-project portfolios. Develops program budgets, monitors execution against funding plans, and prepares variance analyses and corrective action recommendations. Coordinates with leadership to align financial forecasts

with operational priorities. Oversees reporting to internal and external stakeholders and ensures audit readiness. Provides guidance to analysts and supports scenario modeling for strategic decision support.

**Minimum Education:** Masters Degree

**Minimum Experience:** 5 Years

### **Functional Analyst (Solerity, Inc.)**

---

**Functional Responsibility:** Responsible for identifying and documenting all specific functional requirements associated with implementing the application. Develops a comprehensive functional description of current and future system and process requirements through structured interviews, focus groups, documentation review, and other data gathering techniques. Interfaces with technical personnel to identify specific system requirements and risks. Works directly with agency/organization functional staff members to identify specific application views and data requirements to ensure that the final system incorporates required functionality.

**Minimum Education:** Bachelors Degree

**Minimum Experience:** 6 Years

### **GIS Analyst/Programmer IV (Eagle TG, LLC)**

---

**Functional Responsibility:** Develops advanced GIS applications and automates spatial workflows across enterprise environments. Designs custom tools for data processing, visualization, and spatial analysis. Manages large geospatial datasets, ensures data integrity, and integrates GIS functionality with broader IT systems. Provides technical guidance on spatial architecture, supports performance tuning, and collaborates with stakeholders to align GIS capabilities with mission objectives.

**Minimum Education:** Masters Degree

**Minimum Experience:** 5 Years

### **Graphics Specialist III (Eagle TG, LLC)**

---

**Functional Responsibility:** Leads the design and production of complex graphic products including interactive presentations, data visualizations, instructional media, and marketing materials. Applies expert knowledge of design software and multimedia tools to generate impactful content. Advises on layout standards, typography, and color theory for digital and print. Works closely with stakeholders to translate technical information into clear visual formats. Oversees graphic design workflows, provides technical direction to junior designers, and ensures visual consistency across deliverables.

**Minimum Education:** Bachelors Degree

**Minimum Experience:** 3 Years

### **Groupware Specialist III (Eagle TG, LLC)**

---

**Functional Responsibility:** Administers and optimizes collaboration environments supporting messaging, calendaring, and document sharing functions. Coordinates troubleshooting and platform integration activities across systems. Implements role-based access controls and supports continuity through scheduled backups and platform updates. Advises on collaboration tool selection and supports onboarding and transition planning for end users.

**Minimum Education:** Bachelors Degree

**Minimum Experience:** 3 Years

### **Hardware Engineer I (Eagle TG, LLC)**

---

**Functional Responsibility:** Supports hardware setup, basic installation, and routine maintenance tasks under supervision. Assists with troubleshooting issues and documenting component specifications. Follows procedures for equipment configuration and asset tracking.

**Minimum Education:** Bachelors Degree

**Minimum Experience:** 0 Year

### **Hardware Engineer II (Eagle TG, LLC)**

---

**Functional Responsibility:** Installs, configures, and maintains hardware components and peripherals. Diagnoses and resolves technical problems related to equipment performance and compatibility. Assists with hardware upgrades, testing, and user support coordination. Tracks changes in asset configuration and documents issue resolution procedures.

**Minimum Education:** Bachelors Degree

**Minimum Experience:** 1 Years

### **Hardware Engineer III (Eagle TG, LLC)**

---

**Functional Responsibility:** Leads hardware system integration and supports engineering analysis of platform performance and component-level optimization. Conducts compatibility assessments, interfaces with vendors, and provides input into product selection and evaluation. Oversees testing procedures and supports hardware refresh or modernization efforts. Mentors junior staff and contributes to design documentation and equipment lifecycle planning.

**Minimum Education:** Bachelors Degree

**Minimum Experience:** 3 Years

### **Hardware Engineer IV Master (Eagle TG, LLC)**

---

**Functional Responsibility:** Designs and manages complex hardware environments for enterprise systems. Leads specification development, hardware architecture strategy, and configuration standards. Provides guidance on procurement, security hardening, and hardware integration into hybrid or cloud-enabled environments. Oversees enterprise infrastructure refresh planning and manages hardware engineering teams.

**Minimum Education:** Masters Degree

**Minimum Experience:** 5 Years

### **Help Desk Support (Solerity, Inc.)**

---

**Functional Responsibility:** Provides telephone and in-person support to users in the areas of e-mail, directories, standard windows desktop COTS applications, and applications developed under this contract for predecessors. Serves as the initial point of contact for troubleshooting hardware/software PC and printer problems. Has demonstrated ability to communicate orally and in writing and a positive customer service attitude.

**Minimum Education:** Bachelors Degree

**Minimum Experience:** 5 Years

### **Helpdesk Specialist I (Eagle TG, LLC)**

---

**Functional Responsibility:** Responds to routine user inquiries, resolves basic hardware and software issues, and provides Tier 1 support through established procedures. Logs incidents, tracks resolution steps, and provides updates to users. Assists with device setup, password resets, and software installations

under supervision. Escalates unresolved issues to higher support levels and documents support activities per service standards.

**Minimum Education:** Bachelors Degree

**Minimum Experience:** 0 Year

### **Helpdesk Specialist II (Eagle TG, LLC)**

**Functional Responsibility:** Performs Tier 1 and Tier 2 support duties including advanced troubleshooting of workstations, printers, operating systems, and productivity software. Guides users through technical procedures, simulates and recreates reported issues, and updates knowledge base articles. Collaborates with system administrators to resolve recurring problems. Ensures timely incident closure and supports tracking of service-level metrics.

**Minimum Education:** Bachelors Degree

**Minimum Experience:** 1 Years

### **Helpdesk Specialist III (Eagle TG, LLC)**

**Functional Responsibility:** Provides advanced technical support and acts as escalation point for lower-tier personnel. Diagnoses systemic issues, engages technical teams to implement workarounds, and recommends long-term fixes. Oversees asset tracking, remote support systems, and configuration management protocols. Assists with help desk workflow optimization and ensures alignment with ITIL or organizational service management frameworks. Mentors junior staff and supports customer satisfaction tracking.

**Minimum Education:** Bachelors Degree

**Minimum Experience:** 3 Years

### **Information Assurance/Security Specialist I (Eagle TG, LLC)**

**Functional Responsibility:** Supports basic cybersecurity tasks such as security monitoring, account management, and documentation of system configurations. Assists with incident logging, antivirus management, and vulnerability tracking. Follows security procedures and supports compliance reporting under supervision.

**Minimum Education:** Bachelors Degree

**Minimum Experience:** 0 Year

### **Information Assurance/Security Specialist II (Eagle TG, LLC)**

**Functional Responsibility:** Performs security reviews, supports policy enforcement, and monitors access control systems. Assists with system audits, risk assessments, and Plan of Action and Milestones (POA&M) tracking. Coordinates with IT teams to implement baseline security controls and supports patch and remediation activities. Documents findings and contributes to compliance documentation.

**Minimum Education:** Bachelors Degree

**Minimum Experience:** 1 Years

### **Information Assurance/Security Specialist III (Eagle TG, LLC)**

**Functional Responsibility:** Leads security reviews and vulnerability mitigation efforts across multiple systems. Supports system accreditation packages, security test procedures, and audit readiness. Advises on technical security controls, enforces configuration baselines, and supports threat detection and response efforts. Mentors junior staff and collaborates with engineering and operations teams to integrate security into system lifecycle processes.

**Minimum Education:** Bachelors Degree

**Minimum Experience:** 3 Years

### **Information Assurance/Security Specialist IV Master (Eagle TG, LLC)**

---

**Functional Responsibility:** Directs security operations and compliance activities for enterprise environments. Defines and oversees implementation of security architectures and technical safeguards. Coordinates incident response and investigation, manages POA&M resolution, and ensures alignment with frameworks such as NIST, RMF, or organizational standards. Provides executive-level reporting and guidance on security posture, risk, and compliance strategy. Oversees audit preparation and security workforce development.

**Minimum Education:** Masters Degree

**Minimum Experience:** 5 Years

### **Information Specialist/Knowledge Engineer III (Eagle TG, LLC)**

---

**Functional Responsibility:** Designs and implements enterprise knowledge systems supporting content curation, retrieval, and categorization. Applies advanced information modeling and taxonomy structures to organize structured and unstructured content. Supports enterprise portal integration and analytics-driven content enhancements. Collaborates with business units to ensure knowledge systems meet user accessibility and accuracy needs. Provides technical guidance on metadata governance and search optimization practices.

**Minimum Education:** Bachelors Degree

**Minimum Experience:** 3 Years

### **IPT Subject Matter Expert II (Eagle TG, LLC)**

---

**Functional Responsibility:** Provides subject-specific insight to support requirements development and technical solution planning. Assists in evaluating use cases, process improvements, and system configurations. Works across functional teams to ensure alignment with mission and operational priorities. Applies analytical methods and prepares structured recommendations for decision-makers.

**Minimum Education:** Bachelors Degree

**Minimum Experience:** 1 Years

### **IPT Subject Matter Expert III (Eagle TG, LLC)**

---

**Functional Responsibility:** (Advises technical and business teams on domain-specific requirements, policy implications, and implementation risks. Leads review of requirements, supports strategic road-mapping, and refines solution architectures. Resolves stakeholder concerns, mentors junior analysts, and ensures accuracy and traceability of high-impact deliverables. Coordinates with systems and program leadership on integration feasibility.

**Minimum Education:** Bachelors Degree

**Minimum Experience:** 3 Years

### **IPT Subject Matter Expert IV (Eagle TG, LLC)**

---

**Functional Responsibility:** Provides expert-level guidance across multi-disciplinary teams on critical design decisions, architectural tradeoffs, and business transformation efforts. Leads strategy development, risk analysis, and enterprise solution alignment. Oversees technical advisory efforts, stakeholder workshops, and feasibility assessments for system-of-systems implementations. Mentors senior staff,

advises on long-term investment decisions, and ensures alignment between mission objectives and emerging technologies.

**Minimum Education:** Masters Degree

**Minimum Experience:** 5 Years

### **Modeling and Simulation Specialist III (Eagle TG, LLC)**

**Functional Responsibility:** Designs and configures simulation environments and modeling tools to support analysis of operational systems and mission scenarios. Applies quantitative techniques to assess system behavior, performance trade-offs, and operational feasibility. Documents modeling assumptions, presents results to stakeholders, and contributes to verification and validation activities. Supports integration of models with other enterprise tools and data sources. Mentors junior personnel and leads tasks across concurrent initiatives.

**Minimum Education:** Bachelors Degree

**Minimum Experience:** 3 Years

### **Network Engineer I (Eagle TG, LLC)**

**Functional Responsibility:** Supports network configuration and connectivity troubleshooting under supervision. Assists with cabling, device setup, access provisioning, and basic routing updates. Documents changes and supports resolution of help desk tickets related to network access.

**Minimum Education:** Bachelors Degree

**Minimum Experience:** 0 Year

### **Network Engineer II (Eagle TG, LLC)**

**Functional Responsibility:** Performs installation, configuration, and maintenance of network hardware and software. Diagnoses and resolves connectivity and performance issues. Implements routing, switching, and virtual local area network (VLAN) segmentation. Collaborates with security teams to enforce access policies and assists with documentation of changes and procedures.

**Minimum Education:** Bachelors Degree

**Minimum Experience:** 2 Years

### **Network Engineer III (Eagle TG, LLC)**

**Functional Responsibility:** Leads network design and engineering efforts across enterprise environments. Configures advanced routing protocols, VPNs, and traffic optimization strategies. Oversees troubleshooting of latency, bandwidth, and reliability issues. Maintains network architecture diagrams, plans for redundancy, and supports change control processes. Provides guidance on equipment selection and technology upgrades. Mentors junior network engineers and leads network engineering tasks across concurrent initiatives.

**Minimum Education:** Bachelors Degree

**Minimum Experience:** 3 Years

### **Network Engineer Sr (Solerity, Inc.)**

**Functional Responsibility:** Shall have a Bachelor's Degree in Computer Science, Information Systems, or Network Engineering and at least eight (8) years of experience in network engineering (LAN/WAN), architecture, monitoring, security, and protection. Or the individual shall have five (5) years of full time

CS work that can be substituted for the Bachelor's degree and at least eight (8) years of experience in network engineering (LAN/WAN), architecture, monitoring, security, and protection. Must have datacenter network design and architecture experience to include the installation and configurations of Cisco routers, switches, firewalls, and IPSEC virtual private networks.

**Minimum Education:** Bachelors Degree

**Minimum Experience:** 8 Years

#### **Network Specialist II (Eagle TG, LLC)**

---

**Functional Responsibility:** Performs basic monitoring, documentation, and troubleshooting of network systems under supervision. Assists in the installation of network equipment, cable management, and user connectivity tasks. Uses standard diagnostic tools to identify common network issues and logs support activity.

**Minimum Education:** Bachelors Degree

**Minimum Experience:** 0 Year

#### **Network Specialist Level 2 - Journeyman (Eagle TG, LLC)**

---

**Functional Responsibility:** Installs and maintains routers, switches, and related devices. Monitors network performance and usage trends, applies basic configuration changes, and participates in response to network outages. Coordinates with vendors and internal teams to support network service availability.

**Minimum Education:** Associates Degree

**Minimum Experience:** 2 Years

#### **Network Specialist III (Eagle TG, LLC)**

---

**Functional Responsibility:** Leads troubleshooting and performance tuning activities. Configures advanced networking protocols, security appliances, and routing solutions. Documents and maintains logical and physical network diagrams. Coordinates upgrades and plans for scalability in multi-location environments. Mentors junior network personnel.

**Minimum Education:** Bachelors Degree

**Minimum Experience:** 3 Years

#### **Network Specialist IV (Eagle TG, LLC)**

---

**Functional Responsibility:** Directs enterprise network operations including capacity planning, architecture design, and fault tolerance. Defines standards for equipment, protocols, and security postures. Oversees system integration with cloud services and advanced telecom infrastructures. Advises leadership on network modernization, automation, and resilience strategies. Manages network operations teams and cross-site coordination efforts.

**Minimum Education:** Masters Degree

**Minimum Experience:** 5 Years

#### **Program Manager (Solerity, Inc.)**

---

**Functional Responsibility:** Serves as the Contractor counterpart to the ordering activity program/technical managers. Responsible for adhering to work standards, assigning schedules, reviewing work, supervising contractor personnel and communicating policies, procedures, and goals of the organization to personnel. Manages a diverse group of functional activities, subordinate groups of technical and administrative personnel. Manages substantial program/technical support operations involving multiple projects/task orders and personnel at diverse locations. Organizes, directs, and

coordinates planning and execution of all program/technical support activities. Has demonstrated information technology expertise and communications skills to be able to interface with all levels of management. Simultaneously plans and manages the transition of several highly technical projects. Establishes and alters (as necessary) management structure to effectively direct program/technical support activities. Meets and confers with ordering activity management officials regarding the status of specific projects. Responsible for the contractor program/technical activities and problems, issues, or conflicts regarding resolution.

**Minimum Education:** Bachelors Degree

**Minimum Experience:** 15 Years

#### **Program Manager I (Eagle TG, LLC)**

---

**Functional Responsibility:** Manages defined program activities, prepares implementation plans, and monitors task completion. Coordinates with technical teams and stakeholders to ensure alignment with milestones. Tracks budgets, submits status reports, and supports quality control measures across workstreams.

**Minimum Education:** Bachelors Degree

**Minimum Experience:** 2 Years

#### **Program Manager II (Eagle TG, LLC)**

---

**Functional Responsibility:** Supports small-scale program operations including schedule tracking, deliverable documentation, and team coordination. Assists with status reporting and stakeholder communications. Prepares updates for senior staff and supports onboarding of project personnel. Mentors program and project personnel and leads tasks across concurrent initiatives.

**Minimum Education:** Bachelors Degree

**Minimum Experience:** 3 Years

#### **Program Manager IV (Eagle TG, LLC)**

---

**Functional Responsibility:** Leads multi-project programs across technical domains. Defines governance, resource plans, and performance metrics. Oversees teams distributed across multiple locations and interfaces directly with senior clients. Drives delivery against contract requirements, mitigates risks, and ensures stakeholder satisfaction. Supports executive decision-making with cost, schedule, and scope analysis. Guides multidisciplinary teams and advises senior leadership on solution direction.

**Minimum Education:** Masters Degree

**Minimum Experience:** 5 Years

#### **Project Administrator (Solerity, Inc.)**

---

**Functional Responsibility:** Provides expertise to conduct investigations and studies and presents recommendations and solutions related to short and long range program planning requirements. Classifies and summarizes data for the preparation and submission of reports on a recurring basis. Provides advice and assistance to managers which directly affect the conduct and attainment of agency goals and objectives.

**Minimum Education:** Bachelors Degree

**Minimum Experience:** 8 Years

### **Project Manager (Solerity, Inc.)**

---

**Functional Responsibility:** Directs completion of complex information technology tasks within estimated timeframe and budget constraints. Schedules and assigns duties to subordinates and subcontractors and ensures assignments are completed as directed. Enforces work standards and reviews/resolves work discrepancies to ensure compliance with contract requirements. Interfaces with the Contractor's Program Manager as well as ordering activity management personnel including, but not limited to, the Contracting Officer (CO) and the Contracting Officer's Technical Representative (COTR). Reports in writing and orally to contractor management and ordering activity representative. Provides competent technical leadership and is responsible for program direction through successful performance of a variety of detailed, diverse elements of information technology projects. Assists the Program Manager in working with the ordering activity Contracting Representative to ensure work standards and schedules are being met. Assists in managing a group on functional activities and subordinate groups of technical and administrative personnel.

**Minimum Education:** Bachelors Degree

**Minimum Experience:** 12 Years

### **Project Manager I (Eagle TG, LLC)**

---

**Functional Responsibility:** Supports project planning and coordination tasks for low to moderate complexity efforts. Tracks milestones, updates schedules, and prepares basic reports or meeting summaries. May supervise project or contract personnel to ensure task execution and timely status reporting. Interfaces with technical team members and contributes to documentation of deliverables and action items. Follows established project procedures and may escalate issues to senior managers for resolution.

**Minimum Education:** Bachelors Degree

**Minimum Experience:** 0 Year

### **Project Manager II (Eagle TG, LLC)**

---

**Functional Responsibility:** Manages day-to-day operations of moderately complex projects. Coordinates technical activities, develops implementation plans, and monitors deliverable timelines. Supports cost tracking, risk management, and client reporting. Applies standard project management methodologies and ensures compliance with defined objectives. Coordinates with stakeholders to ensure technical and contractual requirements are addressed. May supervise and assign work to project or contract personnel and provide oversight of performance reporting, issue tracking, and quality assurance documentation.

**Minimum Education:** Bachelors Degree

**Minimum Experience:** 1 Years

### **Project Manager III (Eagle TG, LLC)**

---

**Functional Responsibility:** Leads complex projects involving cross-functional teams and system implementations. Oversees scope, resource planning, budget tracking, and performance metrics. Facilitates integrated master scheduling, stakeholder briefings, and project reviews. Advises clients on delivery strategies and resolves high-priority risks. May supervise and assign work to project or contract personnel and provide oversight of performance reporting, issue tracking, and quality assurance documentation. Manages subordinate project managers or coordinators and supports program-level governance and reporting.

**Minimum Education:** Bachelors Degree

**Minimum Experience:** 3 Years

### **Quality Assurance Analyst - SME (Solerity, Inc.)**

---

**Functional Responsibility:** Recognized expert within the Company, who designs, researches, and develops highly advanced applications, which may result in new product/business opportunities for the Company. Leads efforts to capture new business through technical work and capability briefings. Ensures that QC procedures adequately evaluate products. Determines if current methods and techniques result in meeting reliability standards or require modification. Develops, modifies, applies, and maintains quality evaluation and control systems and protocols for processing materials into partially finished or finished materials product. Collaborates with engineering and manufacturing functions to ensure quality standards are in place. Devises and implements methods and procedures for inspecting, testing, and evaluating the precision and accuracy of products and production equipment. Designs and analyzes inspection and testing processes, mechanisms, and equipment; conducts QA tests; and performs statistical analysis to assess the cost of and determine the responsibility for products or materials that do not meet required standards and specifications. Audits quality systems for deficiency identification and correction. Ensures that corrective measures meet acceptable reliability standards and that documentation is compliant with requirements. May specialize in the areas of design, incoming material; production control, product evaluation, and reliability; inventory control; and/or research and development as they apply to product or process quality. May be certified in lean and six-sigma quality engineering methodologies.

**Minimum Education:** Bachelors Degree

**Minimum Experience:** 20 Years

### **Quality Assurance Analyst (Solerity, Inc.)**

---

**Functional Responsibility:** Develops and implements Quality Control (QC) methodologies to ensure compliance with QA standards, guidelines, and procedures in a large computer-based organization. Reviews information systems requirements and develops and implements test plans ensuring proposed data processing systems modules, programs, and systems are stress tested, error free and meet stated requirements before implementation. Must be adept at problem definition and resolution. Must be capable of documenting problems and preparing recommendations for their solution.

**Minimum Education:** Bachelors Degree

**Minimum Experience:** 5 Years

### **Quality Assurance Specialist I (Eagle TG, LLC)**

---

**Functional Responsibility:** Supports QA documentation and test execution under supervision. Prepares and reviews checklists, test logs, and basic quality records. Tracks testing results and assists in reporting variances. Follows prescribed QA procedures and contributes to test team activities in a learning capacity.

**Minimum Education:** Bachelors Degree

**Minimum Experience:** 0 Year

### **Quality Assurance Specialist II (Eagle TG, LLC)**

---

**Functional Responsibility:** Performs structured testing, reviews technical documents, and ensures processes adhere to QA standards. Documents and tracks software defects, evaluates system functionality, and contributes to QA reporting. Participates in audit preparation, supports root cause analysis, and assists with continuous process improvement initiatives.

**Minimum Education:** Bachelors Degree

**Minimum Experience:** 1 Years

### **Quality Assurance Specialist III (Eagle TG, LLC)**

---

**Functional Responsibility:** Leads QA efforts across technical projects. Defines test strategies, coordinates testing schedules, and validates deliverables against acceptance criteria. Reviews functional and technical specifications to ensure traceability and coverage. Mentors junior QA staff and oversees test results analysis, reporting, and corrective actions.

**Minimum Education:** Bachelors Degree

**Minimum Experience:** 3 Years

### **Quality Assurance Specialist IV (Eagle TG, LLC)**

---

**Functional Responsibility:** Directs enterprise QA programs and defines governance frameworks for system testing and compliance validation. Leads audits, develops enterprise QA metrics, and advises on process maturity and tool selection. Provides strategic input on risk mitigation and quality planning across programs. Oversees QA staff and ensures delivery quality aligns with organizational and contractual objectives.

**Minimum Education:** Masters Degree

**Minimum Experience:** 5 Years

### **Research Analyst IV (Eagle TG, LLC)**

---

**Functional Responsibility:** Develops data-driven research reports, synthesizes insights from technical and operational domains, and contributes to stakeholder presentations. Leads studies involving comparative analysis, benchmarking, or forecasting. Coordinates cross-functional input into analytical models and provides recommendations that support organizational planning and IT investment decisions. Guides multidisciplinary teams and advises senior leadership on solution direction.

**Minimum Education:** Masters Degree

**Minimum Experience:** 5 Years

### **Security Specialist (Solerity, Inc.)**

---

**Functional Responsibility:** Serves as an Intelligence Specialist (Cyber Operations) with responsibilities for participating in the production of all-source intelligence products pertaining to computer operation and planning activities. Applies a wide range of intelligence analytic skills to monitor, assess, and report on cyberspace operations, capabilities, vulnerabilities, and personalities that could pose a threat to U.S. computers, communications, weapon systems, and operations. Advises stakeholders on key developments in their assigned area, including immediate and long-term responses. Conducts reviews, identifies gaps, recommends solutions, and ensures alignment with strategies. Supports decision-making and special projects on the preparation, production, and coordination of written products and briefings for stakeholders and leadership. In conjunction with senior analysts, develops and/or recommends complex analytic approaches to problems and situation for which data are incomplete, controversial, or which no precedents exist. Excellent communication skills.

**Minimum Education:** Bachelors Degree

**Minimum Experience:** 5 Years

### **Senior Functional Analyst (Solerity, Inc.)**

---

**Functional Responsibility:** Analyzes user needs to determine functional and cross-functional requirements. Performs functional allocation to identify required tasks and their interrelationships. Identifies resources required to complete each task. Works directly with agency/organization functional staff members to identify specific application views and data requirements to ensure that the final system incorporates required functionality. Responsible for feasibility studies, time and cost estimates, and the

establishment and implementation of new or revised applications systems and programs. Assists in projecting software and hardware requirements. Demonstrates the ability to work independently. Shows leadership skills and has led a team on three successful projects. Has current knowledge of functions being developed or automated.

**Minimum Education:** Bachelors Degree

**Minimum Experience:** 10 Years

### **Senior SME (Solerity, Inc.)**

---

**Functional Responsibility:** Serves as a SME, possessing in-depth knowledge on subjects relating to the conduct, activities, governance, business practices, or operations. Provides expert support, analysis, and research with only broad direction into exceptionally complex problems and processes relating to the subject matter. Provides extensive technical knowledge, analysis of, understanding, and experience in the application of technical principles, theories, and concepts in the required technical field, as well as having full knowledge of other related disciplines exceptionally complex problems that need extensive knowledge of the subject matter for effective development, and implementation of solutions. Provides technical solutions to a wide range of complex problems. Provides technical expertise in a particular area of IT (e.g. Information Systems Architecture, Telecommunications Systems Design, Architecture, Implementation, Information Systems Integration, Software Development Methodologies, Security Engineering, Communications, Network Systems Management, etc.) or a specific functional area (e.g. finance, logistics, operations research, planning, policy, technical intelligence, etc.).

**Minimum Education:** Bachelors Degree

**Minimum Experience:** 6 Years

### **Senior Web Developer (Solerity, Inc.)**

---

**Functional Responsibility:** Consults with clients and other project team members to design, build, and manage websites. Develops installation programs for websites. May negotiate contracts/agreements with software vendors and other internet companies. Relies on experience and judgment to plan and accomplish goals. Performs a variety of complicated tasks. May lead and direct the work of others. A wide degree of creativity and latitude is expected. Typically reports to a project leader or manager.

**Minimum Education:** Bachelors Degree

**Minimum Experience:** 3 Years

### **Software Developer - Expert (Solerity, Inc.)**

---

**Functional Responsibility:** Recognized expert within the Company, who designs, researches, and develops highly advanced applications, which may result in new product/business opportunities for the Company. Leads efforts to capture new business through technical work and capability briefings. Ensures that QC procedures adequately evaluate products. Determines if current methods and techniques result in meeting reliability standards or require modification. Develops, modifies, applies, and maintains quality evaluation and control systems and protocols for processing materials into partially finished or finished materials product. Collaborates with engineering and manufacturing functions to ensure quality standards are in place. Devises and implements methods and procedures for inspecting, testing, and evaluating the precision and accuracy of products and production equipment.

Designs and analyzes inspection and testing processes, mechanisms, and equipment; conducts QA tests; and performs statistical analysis to assess the cost of and determines the responsibility for, products or materials that do not meet required standards and specifications. Audits quality systems for deficiency identification and correction. Ensures that corrective measures meet acceptable reliability standards and that documentation is compliant with requirements. May specialize in the areas of design, incoming

material, production control, product evaluation, and reliability, inventory control, and/or research and development as they apply to product or process quality. May be certified in lean and six-sigma quality engineering methodologies.

**Minimum Education:** Bachelors Degree

**Minimum Experience:** 12 Years

#### **Software Developer (Solerity, Inc.)**

---

**Functional Responsibility:** Developing new software applications in partnership with business analysts and technical architects. Upgrading existing software as the user organization's needs change. Localizing software products for different international markets. Testing software to ensure the code is correct, fixing ('debugging') errors where they occur, and rerunning and rechecking the program until it produces the correct results. Working with trainers and technical writers to develop user support materials.

**Minimum Education:** Bachelors Degree

**Minimum Experience:** 5 Years

#### **Software Engineer (Solerity, Inc.)**

---

**Functional Responsibility:** Analyzes and studies complex system requirements. Designs software tools and subsystems to support software reuse and domain analyses and manages their implementation. Supports the development of unique system software as well as the integration of Commercial Off-The-Shelf (COTS) software integration. Manages software development and support using formal specifications, data flow diagrams, other accepted design techniques, and Computer Aided Software Engineering (CASE) tools. Interprets software requirements and design specifications code, and integrates and tests software components. Estimates software development costs and schedule. Reviews existing programs and assists in making refinements, reducing operating time, and improving current techniques. Supervises software configuration management.

**Minimum Education:** Bachelors Degree

**Minimum Experience:** 3 Years

#### **Software Engineer I (Eagle TG, LLC)**

---

**Functional Responsibility:** Supports entry-level software engineering tasks including requirements interpretation, basic programming, and system configuration. Assists with testing and bug fixes, and follows established design and coding standards. Works under supervision to develop and maintain software modules for routine use cases.

**Minimum Education:** Bachelors Degree

**Minimum Experience:** 0 Year

#### **Software Engineer II (Eagle TG, LLC)**

---

**Functional Responsibility:** Develops moderately complex software features, interfaces, and utilities to meet project goals. Participates in design sessions and applies structured testing practices. Works independently on assignments and collaborates with analysts and developers to refine functionality and ensure performance.

**Minimum Education:** Bachelors Degree

**Minimum Experience:** 1 Years

### **Software Engineer III (Eagle TG, LLC)**

---

**Functional Responsibility:** Leads development tasks involving full-stack components, APIs, and system integrations. Analyzes requirements, proposes technical solutions, and ensures compliance with coding and documentation standards. Reviews the work of junior engineers and contributes to architecture discussions and delivery timelines.

**Minimum Education:** Bachelors Degree

**Minimum Experience:** 3 Years

### **Sr. Documentation Specialist (Solerity, Inc.)**

---

**Functional Responsibility:** Supervises and coordinates daily activities of documentation staff within the department. Ensures new and existing publications are in accordance with established documentation procedures. Ensures any necessary internal process documentation. May require an associate's degree or its equivalent and at least five (5) years of experience in the field or in a related area. Familiar with a variety of the field's concepts, practices, and procedures. Relies on extensive experience and judgment to plan and accomplish goals. Performs a variety of tasks. Leads and directs the work of others. A wide degree of creativity and latitude is expected. Typically reports to a manager or head of a unit/department. Manages the documentation department in accordance with organizational policies and goals. Develops standard documentation methods to effectively communicate product concepts and use. Ensures any necessary internal process documentation.

Prepares and/or maintains documentation pertaining to programming, systems operation, and user documentation. Translates business specifications into user documentation. Plans, writes, and maintains systems and user support documentation efforts, including online help screen. May require an associate's degree in a related area and four (4) to six (6) years of experience in the field or in a related area. Has knowledge of commonly-used concepts, practices, and procedures within a particular field. Relies on instructions and pre-established guidelines to perform the functions of the job. Works under immediate supervision. Primary job functions do not typically require exercising independent judgment. Typically reports to a supervisor or manager. Performs a variety of tasks. Leads and directs the work of others. A wide degree of creativity and latitude is expected. Typically reports to top management.

**Minimum Education:** Associates Degree

**Minimum Experience:** 10 Years

### **Strategic/Capital Planner V (Eagle TG, LLC)**

---

**Functional Responsibility:** Leads strategic planning for large-scale IT initiatives. Guides mission alignment, prioritization, and resource allocation decisions. Develops investment strategies, consolidates capital plans, and prepares documentation for external reporting. Coordinates across business and technology leaders to ensure continuity between strategic goals and operational implementation. Guides multidisciplinary teams and advises senior leadership on solution direction.

**Minimum Education:** Masters Degree

**Minimum Experience:** 7 Years

### **Subject Matter Expert I (Eagle TG, LLC)**

---

**Functional Responsibility:** Provides domain-specific insight under supervision. Participates in project discussions and supports research activities. Applies technical background to assess straightforward issues and contributes to requirement validation and solution documentation. Serves as an entry-level resource for functional guidance in support of project tasks.

**Minimum Education:** Bachelors Degree

**Minimum Experience:** 0 Year

### **Subject Matter Expert II (Eagle TG, LLC)**

---

**Functional Responsibility:** Advises on domain-specific topics and assists with analysis of system needs, compliance implications, and design tradeoffs. Participates in technical, design, and implementation discussions and contributes to stakeholder briefings. Coordinates with technical staff to ensure that proposed solutions reflect accurate and current knowledge of specialized areas.

**Minimum Education:** Bachelors Degree

**Minimum Experience:** 1 Years

### **Subject Matter Expert III (Eagle TG, LLC)**

---

**Functional Responsibility:** Advises on domain-specific topics and assists with analysis of system needs, compliance implications, and design tradeoffs. Participates in technical, design, and implementation discussions and contributes to stakeholder briefings. Coordinates with technical staff to ensure that proposed solutions reflect accurate and current knowledge of specialized areas.

**Minimum Education:** Bachelors Degree

**Minimum Experience:** 3 Years

### **Subject Matter Expert Level 2 - Journeyman (Eagle TG, LLC)**

---

**Functional Responsibility:** (a) Serves as subject matter expert, possessing in-depth knowledge of a particular area, such as business, computer science, engineering, mathematics, or the various sciences. (b) Provides technical knowledge and analysis of highly specialized applications and operational environments, high-level functional systems analysis, design, integration, documentation, and implementation advice on exceptionally complex problems that need extensive knowledge of the subject matter for effective implementation. (c) Participates as needed in all phases of software development with emphasis on the planning, analysis, testing, integration, documentation, and presentation phases. (d) Applies principles, methods and knowledge of the functional area of capability to specific task order requirements, advanced mathematical principles and methods to exceptionally difficult and narrowly defined technical problems in engineering and other scientific applications to arrive at automated solutions. Knowledge/Skill Description Possesses and applies expertise on multiple complex work assignments. Assignments may be broad in nature, requiring originality and innovation in determining how to accomplish tasks. Operates with appreciable latitude in developing methodology and presenting solutions to problems. Contributes to deliverables and performance metrics where applicable.

**Minimum Education:** Associates Degree

**Minimum Experience:** 2 Years

### **Subject Matter Expert Level 3 - Senior (Eagle TG, LLC)**

---

**Functional Responsibility:** (a) Serves as subject matter expert, possessing in-depth knowledge of a particular area, such as business, computer science, engineering, mathematics, or the various sciences. (b) Provides technical knowledge and analysis of highly specialized applications and operational environments, high-level functional systems analysis, design, integration, documentation, and implementation advice on exceptionally complex problems that need extensive knowledge of the subject matter for effective implementation. (c) Participates as needed in all phases of software development with emphasis on the planning, analysis, testing, integration, documentation, and presentation phases. (d) Applies principles, methods, and knowledge of the functional area of capability to specific task order requirements, advanced mathematical principles and methods to exceptionally difficult and narrowly defined technical problems in engineering and other scientific applications to arrive at automated solutions. Knowledge/Skill Description Possesses and applies a comprehensive knowledge across key

tasks and high impact assignments. Plans and leads major technology assignments. Evaluates performance results and recommends major changes affecting short-term project growth and success. Functions as a technical expert across multiple project assignments. May supervise others.

**Minimum Education:** Bachelors Degree

**Minimum Experience:** 3 Years

#### **Systems Administrator - Developmental (Solerity, Inc.)**

**Functional Responsibility:** Develops solutions to routine technical problems of limited scope following detailed instructions. Work is supervised. Maintains smooth operation of multi-user computer systems, including coordination with network engineers. Monitors and manages system resources, including CPU usage, disk usage, and response times to maintain operating efficiency. Performs systems security administration functions, including creating user profiles and accounts. Other duties may include setting up administrator accounts; maintaining system documentation; tuning system performance; and installing system wide software and allocating mass storage space. Interacts with users and evaluates vendor products. Makes recommendations to purchase hardware and software, coordinates installation, and provides backup recovery. Develops and monitors policies and standards for allocation related to the use of computing resources. May be assigned responsibility for less experienced staff.

**Minimum Education:** Bachelors Degree

**Minimum Experience:** 1 Year

#### **Systems Administrator (Solerity, Inc.)**

**Functional Responsibility:** Supervises the monitoring of network facilities. Ensures high quality transmission on network. Directs testing and analysis of all elements of the network facility (including hardware, software, power, communications, lines, modems, and terminals). Supervises testing and analysis of all elements of the network facilities (including software, power, communications machinery, lines, modems, and terminals). Serves as key contact for remote locations and customers to obtain clarification of problems and provides resolution of system failures and degradations. Optimizes system operations and resource utilization and performs system capacity analysis and planning. Provides assistance to users in accessing and using business/computer systems. Monitors and supports computer processing. Coordinates input, output, and file media. Distributes output and controls computer operation.

**Minimum Education:** Bachelors Degree

**Minimum Experience:** 4 Years

#### **Systems Administrator I (Eagle TG, LLC)**

**Functional Responsibility:** Performs routine system installation and configuration tasks under supervision. Supports user account setup, operating system patching, and system monitoring. Assists with backup procedures and incident response processes. Follows change control guidelines and maintains basic system documentation.

**Minimum Education:** Bachelors Degree

**Minimum Experience:** 0 Year

#### **Systems Administrator II (Eagle TG, LLC)**

**Functional Responsibility:** Performs intermediate-level system administration including patch management, access provisioning, and server monitoring. Troubleshoots hardware and software issues and coordinates with vendors or technical teams for resolution. Supports change implementation and maintains system compliance with operational procedures.

**Minimum Education:** Bachelors Degree

**Minimum Experience:** 1 Years

### **Systems Administrator III (Eagle TG, LLC)**

---

**Functional Responsibility:** Leads administration of multi-platform systems and manages lifecycle support for infrastructure environments. Conducts root cause analysis, performance tuning, and automation of routine tasks. Oversees system backups, implements hardening procedures, and ensures alignment with organizational policies. Mentors junior administrators and supports enterprise documentation and recovery planning.

**Minimum Education:** Bachelors Degree

**Minimum Experience:** 3 Years

### **Systems Engineer (Solerity, Inc.)**

---

**Functional Responsibility:** Applies software, hardware, and standards information technology skills in the analysis, specification, development, integration, and acquisition of systems for information management applications. Provides technical leadership developing solutions for engineering studies. Evaluates and recommends COTS applications and methodologies that can be acquired to provide interoperable, portable, and scalable information technology solutions. Performs analysis and validation of reusable software/hardware components to ensure the integration of these components into interoperable information management designs.

**Minimum Education:** Bachelors Degree

**Minimum Experience:** 4 Years

### **Systems Engineer I (Eagle TG, LLC)**

---

**Functional Responsibility:** Assists in documenting system requirements, configurations, and test cases. Supports system installations and performs entry-level troubleshooting. Follows engineering guidelines and contributes to integration efforts under close supervision.

**Minimum Education:** Bachelors Degree

**Minimum Experience:** 0 Year

### **Systems Engineer II (Eagle TG, LLC)**

---

**Functional Responsibility:** Performs system configuration, test support, and integration of software and hardware components. Develops baseline documentation and assists in analyzing performance constraints. Works independently on assigned engineering tasks and collaborates with teams on system validation.

**Minimum Education:** Bachelors Degree

**Minimum Experience:** 1 Years

### **Systems Engineer III (Eagle TG, LLC)**

---

**Functional Responsibility:** Leads system design efforts and evaluates architectural decisions for large-scale implementations. Analyzes system behavior and recommends improvements to enhance reliability and scalability. Supports integration testing and system acceptance. Mentors junior engineers and ensures design alignment with enterprise standards.

**Minimum Education:** Bachelors Degree

**Minimum Experience:** 3 Years

### **Systems Engineer IV (Eagle TG, LLC)**

---

**Functional Responsibility:** Provides strategic engineering oversight across enterprise programs. Defines system specifications, supports trade-off analyses, and ensures alignment with business and operational needs. Leads system evaluations, risk mitigation planning, and full lifecycle implementation support. Advises senior leadership on system optimization and integration strategies across domains. Guides multidisciplinary teams and advises senior leadership on solution direction.

**Minimum Education:** Masters Degree

**Minimum Experience:** 5 Years

### **Technical Editor IV (Eagle TG, LLC)**

---

**Functional Responsibility:** Oversees editorial quality control for technical deliverables. Edits complex documentation for clarity and technical accuracy, incorporating input from multidisciplinary teams. Develops templates, reviews compliance with editorial standards, and ensures consistency in format, tone, and structure across programs and reporting packages. Guides multidisciplinary teams and advises senior leadership on solution direction.

**Minimum Education:** Masters Degree

**Minimum Experience:** 5 Years

### **Technical Writer III (Eagle TG, LLC)**

---

**Functional Responsibility:** Develops technical documentation in support of enterprise systems and services. Translates technical specifications into user-facing content, facilitates document reviews, and maintains consistency across product or program deliverables. Ensures alignment with communication objectives and maintains version-controlled documentation libraries. Mentors junior writers and leads tasks across concurrent initiatives.

**Minimum Education:** Bachelors Degree

**Minimum Experience:** 3 Years

### **Technician I (Eagle TG, LLC)**

---

**Functional Responsibility:** Assists with installation, testing, and removal of IT hardware and associated components. Supports inspections and prepares workspaces for device installation. Follows checklists and standard procedures under direct supervision.

**Minimum Education:** Bachelors Degree

**Minimum Experience:** 0 Year

### **Technician II (Eagle TG, LLC)**

---

**Functional Responsibility:** Executes configuration, site prep, and hardware integration with limited oversight. Performs more complex testing and ensures installation quality and adherence to specifications. Coordinates logistics for asset relocation and supports documentation of activities.

**Minimum Education:** Bachelors Degree

**Minimum Experience:** 1 Years

### **Technician III (Eagle TG, LLC)**

---

**Functional Responsibility:** Leads equipment installation efforts and ensures system readiness for operational deployment. Conducts detailed site inspections and resolves compatibility issues across equipment types. Oversees junior personnel during setup and testing and ensures completion of all technical validation checklists.

**Minimum Education:** Bachelors Degree

**Minimum Experience:** 3 Years

### **Technology Engineer I (Eagle TG, LLC)**

---

**Functional Responsibility:** Assists with engineering design tasks and documentation. Supports development and testing of software applications. Applies foundational engineering practices under supervision to address simple systems issues or requirements.

**Minimum Education:** Bachelors Degree

**Minimum Experience:** 0 Year

### **Technology Engineer II (Eagle TG, LLC)**

---

**Functional Responsibility:** Performs system analysis and supports implementation of engineering solutions across platforms. Leads specific development or testing activities and coordinates with other engineers to ensure quality and consistency. Applies industry practices and organizational standards to project tasks.

**Minimum Education:** Bachelors Degree

**Minimum Experience:** 1 Years

### **Technology Engineer III (Eagle TG, LLC)**

---

**Functional Responsibility:** Leads design and implementation of technical solutions across complex environments. Coordinates engineering activities and drives technical decision-making across system development or modernization efforts. Mentors junior engineers and ensures alignment with technical requirements and user expectations.

**Minimum Education:** Bachelors Degree

**Minimum Experience:** 3 Years

### **Test Engineer I (Eagle TG, LLC)**

---

**Functional Responsibility:** Supports test planning, execution, and documentation under supervision. Assists in writing basic test cases, capturing results, and reporting discrepancies. Follows defined procedures and applies standard tools for functional and integration testing.

**Minimum Education:** Bachelors Degree

**Minimum Experience:** 0 Year

### **Test Engineer II (Eagle TG, LLC)**

---

**Functional Responsibility:** Conducts manual and automated testing activities across software modules. Develops test cases based on requirements, logs defects, and coordinates retesting. Assists with maintaining test environments and contributes to quality assurance reporting. Works independently on routine testing tasks.

**Minimum Education:** Bachelors Degree

**Minimum Experience:** 1 Year

### **Test Engineer III (Eagle TG, LLC)**

---

**Functional Responsibility:** Leads testing strategy for system and software deployments. Designs comprehensive test plans, evaluates coverage, and oversees execution of unit, integration, regression, and

performance testing. Reviews testing artifacts for completeness and accuracy. Provides mentorship to junior testers and supports defect triage, root cause analysis, and release readiness assessments.

**Minimum Education:** Bachelors Degree

**Minimum Experience:** 3 Years

#### **Training Specialist I (Eagle TG, LLC)**

---

**Functional Responsibility:** Supports training coordination, prepares handouts, and assists instructors during sessions. Performs setup of training environments, tracks attendance, and gathers learner feedback. Follows instructional materials and applies basic facilitation techniques under supervision.

**Minimum Education:** Bachelors Degree

**Minimum Experience:** 0 Year

#### **Training Specialist II (Eagle TG, LLC)**

---

**Functional Responsibility:** Delivers instructor-led and virtual training sessions using pre-developed content. Supports content revisions based on feedback and system updates. Coordinates training logistics and assists in updating learning assessments and evaluations. Engages with learners to support knowledge transfer.

**Minimum Education:** Bachelors Degree

**Minimum Experience:** 1 Year

#### **Training Specialist III (Eagle TG, LLC)**

---

**Functional Responsibility:** Delivers instructor-led and virtual training sessions using pre-developed content. Supports content revisions based on feedback and system updates. Coordinates training logistics and assists in updating learning assessments and evaluations. Engages with learners to support knowledge transfer.

**Minimum Education:** Bachelors Degree

**Minimum Experience:** 3 Years

#### **Voice/Data Communications Engineer I (Eagle TG, LLC)**

---

**Functional Responsibility:** Assists in installation and maintenance of basic voice and data systems. Performs initial configurations and conducts routine troubleshooting under supervision. Documents configurations and supports user connectivity requests.

**Minimum Education:** Bachelors Degree

**Minimum Experience:** 0 Year

#### **Voice/Data Communications Engineer II (Eagle TG, LLC)**

---

**Functional Responsibility:** Performs system configuration, capacity monitoring, and maintenance of VoIP and network communication devices. Supports site installations, upgrades, and incident resolution. Evaluates network logs and provides input for system tuning.

**Minimum Education:** Bachelors Degree

**Minimum Experience:** 1 Year

#### **Voice/Data Communications Engineer III (Eagle TG, LLC)**

---

**Functional Responsibility:** Leads planning and implementation of enterprise communication infrastructure. Conducts performance evaluations, system upgrades, and network diagnostics.

Collaborates on system design, disaster recovery, and security integration. Mentors junior engineers and ensures standardization across locations.

**Minimum Education:** Bachelors Degree

**Minimum Experience:** 3 Years

#### **Voice/Data Communications Engineer IV (Eagle TG, LLC)**

---

**Functional Responsibility:** Provides senior-level engineering leadership for enterprise communications solutions. Oversees configuration, monitoring, and troubleshooting of complex routing, switching, and voice infrastructure. Defines standards for quality of service, redundancy, and secure communication. Leads modernization initiatives and provides technical input into vendor selection, architecture design, and disaster recovery planning. Manages implementation teams and aligns communication infrastructure with organizational strategy and future-state architecture. Guides multidisciplinary teams and advises senior leadership on solution direction.

**Minimum Education:** Masters Degree

**Minimum Experience:** 5 Years

#### **Web Content Analyst IV (Eagle TG, LLC)**

---

**Functional Responsibility:** Leads content strategy for web platforms, manages content workflows, and ensures alignment with organizational objectives. Defines taxonomy, search optimization practices, and accessibility compliance. Provides editorial guidance and collaborates with developers on CMS configurations. Creates and maintains structured digital content. Coordinates with stakeholders to ensure timely updates and content relevance. Conducts quality assurance on web assets and gathers usage analytics for reporting. Guides multidisciplinary teams and advises senior leadership on solution direction.

**Minimum Education:** Masters Degree

**Minimum Experience:** 5Years

#### **Web Designer III (Eagle TG, LLC)**

---

**Functional Responsibility:** Leads UI/UX design for enterprise web environments. Develops wireframes, prototypes, and design systems. Oversees implementation of modern front-end frameworks and ensures visual consistency across products. Provides mentorship to junior designers and interfaces with technical teams during development.

**Minimum Education:** Bachelors Degree

**Minimum Experience:** 3 Years

## Experience & Degree Substitution Equivalencies

\*Experience exceeding the minimum shown may be substituted for education. Likewise, education exceeding the minimum shown may be substituted for experience.

Labor Category	Standard Qualifications		Substitutions				
	Min Edu	Min Exp	PhD	Masters	Bachelors	Associates	High School
Analyst I (Eagle TG, LLC)	Bachelors	0	0	0	0	2	4
Analyst II (Eagle TG, LLC)	Bachelors	1	0	0	1	3	6
Analyst III (Eagle TG, LLC)	Bachelors	3	0	1	3	5	7
Applications Developer I (Eagle TG, LLC)	Bachelors	0	0	0	0	2	4
Applications Developer II (Eagle TG, LLC)	Bachelors	1	0	0	1	3	6
